

KRUNAL DESAI

B.Tech IT & Engineering Student · Full Stack Development

✉ desaikrunal2005@gmail.com | 📞 +91 9426893040 | [🌐 LinkedIn](#) | [🐙 GitHub](#) |

PROFESSIONAL SUMMARY

Motivated **B.Tech Information Technology Engineering** student with hands-on experience in **Full Stack Development**. Proficient in **React.js, Node.js, Express.js, MongoDB, and Java**. Passionate about building user-friendly, scalable web applications and eager to contribute as a Software Developer while continuously learning new technologies.

EXPERIENCE

Office Intern — P.P. Savani University

Apr'24 – May'24 | Kosamba

Administrative & Office Support Internship

- Managed document photocopying and printing for office team members; handled high-volume workloads efficiently and met all deadlines.
- Maintained consistent punctuality and a dependable work ethic throughout the internship period.

PROJECTS

SHEMS - Smart Hospital Emergency Management System

June 2026 – Present

JavaScript · React.js · MongoDB · Node.js · Express.js · HTML5 · CSS3

- Developed a full-stack **Smart Hospital Emergency Management System** using React.js, Node.js, Express.js, and MongoDB.
- Implemented a **login-free SOS emergency workflow** allowing users to locate nearby ambulances and hospitals with available emergency beds for faster medical response.
- Designed role-based dashboards for Admin, Hospital, Driver, and Patient with emergency dispatch management, hospital notifications, patient tracking, and treatment-first emergency handling.

Placement Portal — Campus Recruitment Management System | [GitHub](#)

July 2026

Laravel · PHP · MongoDB · HTML · CSS · JavaScript · Bootstrap

- Developed a **full-stack placement portal** with role-based authentication for students, companies, and administrators.
- Implemented **aptitude tests**, question management, a student portal, and company drive modules, including **online examinations with automatic result generation**.
- Designed a responsive admin dashboard with integrated **MySQL database** for managing drives, results, and users.

WFH-Site — Forever Living eCommerce Platform | [GitHub](#)

Nov 2025

PHP · MySQL · HTML · CSS · JavaScript

- Developed a **full-stack eCommerce platform for Forever Living products** with secure authentication and online order management.
- Built a responsive admin dashboard for managing products, orders, and users using PHP, MySQL, HTML, CSS, and JavaScript.

ROBOALLOC — Warehouse Robot Management System | [GitHub](#)

May 2024

Vanilla JS · HTML · CSS

- Designed a **warehouse robot management** simulator featuring autonomous **navigation, battery optimization, and order allocation**.
- Built an interactive dashboard with live grid visualization, robot monitoring, and performance analytics using Vanilla JavaScript.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, PHP, Python (Basics)

Frontend: HTML5, CSS3, Bootstrap, Responsive Design

Frameworks & Libraries: React.js, Node.js, Express.js, Laravel

Database: MongoDB, MySQL, SQLite

Core CS: OOP, Data Structures, Algorithms, SQL, DBMS, REST APIs

Tools: VS Code, GitHub, Git, AWS Cloud

ACHIEVEMENTS

- Certifications:** AWS Cloud Foundations, Cloud Security Foundations, Generative AI Foundations
- NPTEL Programming in Java, Infosys Network Fundamentals, Great Learning Front-End Development
- Events & Competitions:** Winner in 13th National Icestock held in Gulmarg representing **Gujarat** at National Level.
- Workshops:** Modern Android Development, Generative AI (GDSC PPSU)

EDUCATION

P.P. Savani University (PPSU) — B.Tech in Information Technology & Engineering

2023 – 2027 (Expected)

CGPA: 6.39
